What ASBAH does ...

The Association for Spina Bifida and Hydrocephalus, founded in 1966, exists to serve the needs of children and young people with these two complaints and to support their families.

A team of specialist field officers provides help and advice, and attention is also given to research, aids and appliances, holidays, training and employment.

Both the London office and more than 80 local groups throughout the country strive to ease the burden and make life worth living for more than 12,000 children with these distressing handicaps.

Please help us to help them.
